

FAMILY ROOM
LESLIE KALISH &
GAYLE LEKSAN

Family room "The natural ambience evokes relaxed Napa style," says Leslie Kalish, who worked with Gayle Leksan to create the layered family room. Pratt & Lambert's matte charcoal paint envelops the space appointed with organic accents—an albizia console, a petrified-wood accent table, and a coiled liana vine above the fireplace. Black-and-white textiles, including a wool rug, ethnic-stripe fabric, and floor cushions upholstered in African mud cloths, incorporate further contrast. A leather chair with hemp-tie tufting perches near the hearth with its Belgian bluestone surround. A plush sofa adorned with pillows accommodates overflow. The patterned table lamp and aged-iron hanging pendant are from Circa Lighting.
